

2.3.2. Teachers use ICT enabled tools for effective teaching-learning process

Amidst the huge loss of face-to-face classroom experience for the students and faculty, the ICT tools were inevitable necessities to be mastered and put to optimum usage in this academic year. For teaching, special lectures and seminars, Zoom, Google Meet, Webex and other online clients were extensively used. Google Classroom was used by each faculty for connecting with students, getting assignments, providing learning materials and sharing marks to their students.

Open Educational Resources (OER) were extensively used by the faculty members for teaching content, learning materials and methodological requirements.

Teaching faculty and research students were provided orientation and training in using the OER platforms such as OER Commons, Digital Library of India, National Digital Library, Shodhganga and NPTEL.
