

STUDENTS' COUNCIL

The aim of the Student Committee is to include the students in the everyday affairs and matters of pertinence relating to their interest and welfare. The College has a well-established students Committee, thereby opening up the opportunity for leadership, teamwork and healthy cooperation. Students are encouraged to organize events and carryout activities for the betterment of their learning environment as well as for the upliftment of the society. The Students Committee also works to improve and sustain a healthy student-teacher relationship in the College. The elected representatives of each class are included in this Committee in order to involve student participation in campus activities and specific events or useful tasks related to their concerned departments.
