

7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

The key operations of our institute has very less impact on the environment as generating less waste and recycling it by passing it through a system that enables the used material to be reused ensuring that less natural resources are consumed.

(a) Solid Waste:

The waste is generated by all sorts of routine activities carried out in the College that includes paper, glass, metals, foods, etc. The waste is segregated at each level and source. The floor dustbins are emptied in movable containers/dustbins provided for each block and is taken to the dumping yard provided by the College. The College has contacted an authorized vendor who collects the waste from the designated place, segregate them and disposes them at the landfills authorized.

(b) Liquid Waste:

Liquid waste generated by the College are of two types:

1. Sewage waste
2. Laboratory, Laundry and cafeteria effluent waste.

(c) E-Waste Management:

Flip flops, memory chips, motherboard, compact discs, cartridges etc generated by electronic equipments such as Computers, Phones, Printers, Fax and Photocopy machines are recycled properly. The e-waste generated from hardware which cannot be reused or recycled is being disposed off centrally through authorized vendors.

7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

The key operations of our institute has very less impact on the environment as generating less waste and recycling it by passing it through a system that enables the used material to be reused ensuring that less natural resources are consumed.

(a) Solid Waste:

The waste is generated by all sorts of routine activities carried out in the College that includes paper, glass, metals, foods, and tires etc. The waste is segregated at each level and source. The floor dustbins are emptied in movable containers/dustbins provided for each block and is taken to the dumping yard provided by the College. The College has contacted an authorized vendor who collects the waste from the designated place, segregate them and disposes them at the landfills authorized.
