

4.3.1 IT Facilities

Our institution upgrades its IT infrastructure regularly. Our computer laboratories are equipped with ICT and Wi-Fi facilities along with the sufficient number of computers for the students. The classrooms and staffrooms are provided with Wi-Fi facility with the motto of encouraging teaching – learning process.

Our institution also has separate internet browsing centres for the faculty members. The usage of information and communication technology is being planned by our institution for the purpose of interactions with the stake holders of the college. Our college finance and accounts are maintained by the staff who are well trained in the accounting software ‘TALLY’ with the latest version. The complete process of administration and finances are wholly computerised in-order to facilitate the timely reporting and efficient allocation of resources.

In library the software for library management was installed in-order to keep the track of the books and the journals. The consolidated report of the monthly attendance of the students has been computerized to provide each students attendance on a day-to-day basis. It helps in storing the enormous volume of data and it facilitates process in the area of planning and development, administration, finance and accounts, students admission and the examinations in the college.
